CHANCELLOR'S DESK
WORDS OF WISDOM

Since its establishment, based on the founding ideals of "freedom and innovation," the education at Agrawan Heritage University has allowed students to acquire various skills and values that are synonymous with a private-school environment. Over the years, such efforts have cultivated and sent a health of human resources out into the world. However, in the coming years, we must also focus on education that develops creative individuals that modern society needs. With this mind, we must not only encourage a high-level of classroom leaning, but also actively involve students in cutting-edge research activities conducted by our laboratories, encourage students to expose themselves to new challenges, and produce individuals capable of facing and resolving the tough challenges in the real world. In order to successfully produce such individuals, it is necessary to provide world-class, cutting-edge research centers at AHU and further improve our current research standards so they match the highest highest of International levels. I believe that the individuals produced form these research centers will overcome the powerful tide of globalization, gain the potential to surmount overseas competition, and take on the future burdens of the world. It is my sincere hope that research achievements obtained at AHU will contribute to the realization of a society where humans and nature can co-exist peacefully, as per the requirements of the 21st century.

THE TAJ CITY

Agra is a city offering a discovery of the beautiful era. Agra has a rich history, reflected in its numerous monuments dotted in and around the city. The earliest citation for Agra comes from the mythological era, where the epic Mahabharata refer Agra as 'Agravana' meaning paradise in Sanskrit. 'Ptolemy', the famous second century A.D. geographer, was the first person who referred Agra with its modern name. The Modern Agra was founded by Sikandar Lodi, ruler of Lodi dynasty in 16th century. It was when Shah Jahan descended the Mughal throne that Agra reached the zenith of architectural beauty.

The city lies in the Western part of Uttar Pradesh on the bank of River Yamuna. Though the wonderful allure of the Taj Mahal attracts people from around the world over to Agra, it is not a standalone attraction. The city offers a trail of fascinating tombs and mausoleums to explore. Acclaimed for its lavish crafts like Pietra Dura (marble inlay) work, rugs and leather goods, and the luscious Petha, Agra equally caters well to shopaholics and foodies.

The magnificent Agra Fort is one of the most remarkable monuments built in India during the reign of the Mughals. This 94-acre structure is situated in the city of Agra along the banks of the Yamuna River, about 3 km away from the renowned Taj Mahal. If you are planning a trip to Agra, make sure to include this erstwhile residence of the Mughals in your itinerary.
